## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-18 and 20-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haremza et al. US 6,214,929.

3. This patent teaches the preparation of aqueous dispersions having the particle sizes as claimed, see column 12 lines 55+. The polymers claimed are suggested in columns 2-8. The claimed stabilizer is suggested at column 11 lines 45+. In view of this disclosure the claims are rendered prima facie obvious.
